New Source Review newspaper advertisements for construction permit applications, December 28, 2017. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be or were published on one of the following dates: December 26, 2017, December 27, 2017, or December 28, 2017. Public notices are generally published every week. The previous publication of public notices was December 21, 2017.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is <u>3M Company</u> with a mailing address of <u>400 JD Yarnell Industrial Parkway</u>, <u>Clinton, TN 37716</u>. They seek to obtain air contaminant permits for construction of air contaminant sources located <u>at the same address</u>, as follows: <u>Nonwoven Web Converting Lines #4 and #5</u>: (Division identification number: <u>01-0275-37 and 38/73570</u>). These proposed operations bind a resin to a nonwoven web via an extrusion process, and the finished product is cut to size, boxed, and packaged. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There will be physical construction. Regulated air contaminants will be emitted by these sources. Mr. John Trimmer is the assigned Division person.

For the Anderson County "Oak Ridger"--publish once on Thursday, December 28, 2017.

The applicant is <u>Composite Solutions, LLC</u> with a mailing address of <u>1664 Murfreesboro Road, Woodbury, TN 37190</u>. They seek to obtain air contaminant permits for construction of a fiberglass boat and other fiberglass parts manufacturing operations on <u>225 Alexander Drive, Woodbury, TN 37190</u> as follows:

- (1) <u>Gelcoat Application and Lamination Operation</u> (Division identification number: <u>08-0062-01/973546</u>). The proposed operations would consist of a spray booth for gel coat and lamination operation. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.
- (2) <u>Secondary Building for Post Spraying Operations</u> (Division identification number: <u>08-0062-01/973595</u>). The proposed operation would consist of a spray booth for post spraying operation. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

Mr. Younes Aleali is the assigned Division person.

For the Cannon Courty "Cannon Courier"---publish once on Tuesday, December 26, 2017.

The applicant is <u>Huf North America Automotive Parts Manufacturing</u>, <u>Corp.</u> with a mailing address of <u>395 T. Elmer Cox Drive</u>, <u>Greeneville</u>, <u>TN 37743</u>. They seek to obtain an air contaminant permit for modification of a surface coating operation with a paint sludge recovery operation (Division identification number: <u>30-0262-02/73418</u>) located <u>at the same address</u>. The emission limit for a regulated air contaminant (volatile organic compounds) emitted by this source will increase. A thermal oxidizer is used for pollution control. There will not be physical construction. Regulated air contaminants are emitted by this source. Mr. John Trimmer is the assigned Division person.

For the Greene County "Greeneville Sun"--publish once on Thursday, December 28, 2017.

The applicant is <u>City of Murfreesboro</u> with a mailing address of <u>5528 Sam Jared Drive</u>, <u>Murfreesboro</u>, <u>Tennessee 37130</u>. They seek to obtain air contaminant permit(s) (Division identification numbers: <u>75-0818-01,02 &03/973580</u> for Installation of 3 Generators, the facility is located on <u>5528 Sam Jared Drive</u>, <u>Murfreesboro</u>, <u>Tennessee 37130</u>. The requested operation is for the approval to emit regulated air pollutants. Mr. Jim A. Attar is the assigned Division person.

For the Rutherford County "Daily News Journal"--publish once on Thursday, December 28, 2017.

The applicant is <u>Eastman Chemical Company</u> with a mailing address of <u>P.O. Box 511</u>, <u>Kingsport, TN 37662</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0003-298/73589</u>) for construction of a <u>Chemical Manufacturing Operation</u> (<u>Hydrogen Plant #6</u>) located at <u>100 Eastman Road, Kingsport, TN 37662</u>. The proposed operation consists of equipment used in the manufacture of hydrogen gas. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Kingsport Times-News" – publish once on Thursday, December 28, 2017.

The applicant is <u>Ironhorse Trailer, Inc.</u> with a mailing address of <u>246 located at Mt. View Industrial Drive, Morrison, TN 37357</u>. They seek to obtain air contaminant permits for the operation of these sources located at the <u>Same Location</u>, as follows:

- (1) <u>Gelcoat Spraying Station</u> (Division identification number: <u>89-0212-01/73004</u>). This existing operation consists of a spray booth and associated equipment that uses a gelcoat application for trailer body molds. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source.
- (2) <u>Mechanical Lay-Up Station</u> (Division identification number: <u>89-0212-02/73004</u>). This existing operation consists of mechanically atomizing reinforced fiberglass resin to gelcoated molds. Exhaust filters are used for pollution control. There would be physical no construction. Regulated air contaminants are emitted by this source.
- (3) <u>Interior Surface Coating Station</u> (Division identification number: <u>89-0212-05/73004</u>). This existing operation consists of manual coating application for fiberglass components of trailer mold assembly. Due to the amount and type of emissions, the use of pollution control equipment is not used. There would be no physical construction. Regulated air contaminants are emitted by this source.
- Mr. J. Horton is the assigned Division person.

For the Warren County "Southern Standard"--publish once on Wednesday, December 27, 2017.

The applicant is East Tennessee State University (ETSU) with a mailing address of 1380 Jack Vest Drive, Johnson City, TN 37614. They seek to obtain an air contaminant permit (Division identification number: 90-0029-12, 14, & 15/973586) for the modification of fourteen (14) existing emergency stationary internal combustion engines (source 12) and two (2) existing boilers (sources 14 and 15) located at the same address. The existing emergency stationary internal combustion engines consist of ten (10) diesel-fired engines and four (4) natural gas-fired engines and associated equipment used to produce power in emergency situations. The two (2) existing boilers are natural gas-fired with #2 fuel oil for back-up purposes. The requested modification is to increase allowable emissions for sources 12, 14, and 15. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. J. Pratt is the assigned Division person.

For Washington County "Johnson City Press"--publish once on Thursday, December 28, 2017.

The applicant is <u>Wood PLC</u> with a mailing address of <u>50 Advance Drive</u>, <u>Springboro</u>, <u>OH 45066</u>. They seek to obtain an air contaminant permit (Division identification number: <u>95-0443-01/73565</u>) for construction of a <u>Mobile Impact Crusher Operation</u> located at <u>2810 McCrary Road</u>, <u>Lebanon</u>, <u>TN 37090</u>. This proposed construction would consist of a mobile *jaw* crusher (McCloskey J45) and associated equipment used for crushing rock and nonmetallic minerals. Wet suppression would be used of pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Horton is the assigned Division person.

For the Wilson County "Lebanon Democrat"--publish once on Thursday, December 28, 2017.
